

BOLD CONCEPT & STANBLESS NIGERIA LIMITED

Company Profile

BOLD CONCEPT & STANBLESS NIG. LTD

About BOLD CONCEPT & STANBLESS NIG. LTD

Bold Concept & Stanbless Nigeria Limited (**BCS**) is an indigenous Oil and Gas Servicing Company based in Lagos, Nigeria. We are excited providing uncommon solutions to numerous clients in the areas of Mechanical Engineering, Construction/Architectural Designs, Printing, Steel Works and Consulting. The company differs from other Engineering and Consultancy companies in that we meet and surpassed the expectation of our clients in terms of quality and timely delivery of products and services.

We provide technical services majorly in the upstream oil and gas sector which cuts across Engineering, Procurement, Construction, Installation and Commissioning. We also provide bespoke solutions aimed at meeting our clients' peculiar needs. Our very experienced multidiscipline engineering and execution team delivers value-added services that ensures reduced project execution schedule, minimize repetitive engineering, create best practices guidelines and resolve complex and challenging issues.

Vision:

BCS vision is to be the preferred company that provide solutions to our clients' concerns and effect change to the concept of indigenous mechanical/civil engineering contractors. To consciously organizes pace and time in order to significantly enhance the provision of articulated setting for human and technological activities.

Mission:

The mission is to be amongst the best mechanical/civil engineering indigenous companies with international standard using worldclass technologies in our day today activities, offering world class and cost-effective services in our chosen field. To be a leading in the human transformation of raw ideas into valued and functionals paces in providing high quality service and the development of men, materials and ideas.

Cooperate Belief:

Our corporate belief is "Beautify Your World".

Core Values:

- ✓ Quality
- ✓ Safety

✓ Loyalty

✓ Satisfaction

Technical Partners:

The company is in partnership with local and foreign companies amongst which are:

✓ Korea Gas Engineering

✓ FELLER Inc. USA

✓ Euro Pump Turkey

✓ Top Ace Development Co., LTD.

✓ Mahalael Engineering and Construction Limited

✓ Raidbod & Ass. Kaduna

✓ Ecobond Construction Limited UK

✓ Phoenix Contact South Africa

✓ Dove-Image Associates Limited.

✓ ACE BOND China.

✓ Charvet Digital Media Miribel France

✓ Del Grace Ventures International Ltd.

✓ Soran Group Tunisia

Our Footprint:

Some of our landmarks and footprints includes but not limited to:

✓ Total Energies Nig.
Ltd

✓ MRS Plc.

✓ Forte Oil PLC

✓ Mobil Nigeria PLC

✓ NIPCO Plc

✓ Nigeria National
Petroleum

Company (NNPC)
Ondo State
Government

✓ Mania Oil

✓ Conoil Nig.Plc

✓ World Mission
Agency

✓ SO energy

✓ CNG Gas

✓ Lagos State
Government

✓ Capital Oil

✓ Stallion Oil Yinzag
Oil Discovery Air

✓ First Royal Oil Nig.
Ltd

✓ Dutchess Energy

OUR SERVICES

We have very strong capabilities in Engineering, Procurement, Installation, Construction and Commissioning services for majorly upstream producing companies.

ENGINEERING SERVICES

BCS provides creative work, the adequate performance of which requires engineering application of knowledge, physical and engineering services or creative work as consultation, investigation, evaluation, planning and design of engineering works and systems, engineering studies and the review of construction for the purpose of assuring substantial compliance with drawings and specifications. Some of the Engineering Services includes;

- ✓ Conceptual Design
- ✓ Front End Engineering Design (FEED)
- ✓ Detailed Engineering Design (DED)
- ✓ As-Built Engineering
- ✓ 3D Laser Scanning and Modelling

PROCUREMENT SERVICES

BCS has a vast network of technical partners and manufacturers around the globe which makes us capable of supplying our clients with the most comprehensive choice of equipment for their Seismic, Exploration, Production Operations and usage in the Upstream Sector.

BCS has an effective Supply Chain Management Service and we incorporate use the latest business management software within our procurement solution, so as to be able to

offer all our client's full implementation and support, striving to meet their purchasing needs and requirements. Some of our procurement services includes but not limited to;

- ✓ Mechanical materials and equipment such as All sizes, classes and specifications of Pipes, Fittings, Valves, etc
- ✓ Instrumentations materials and equipment such as All sizes, classes and specifications of Control Valves, Temperature Indicators, Pressure Indicators, etc
- ✓ Cathodic Protection Materials such as Anodes, etc
- ✓ Electrical Materials for construction and installation in oilfields.

INSTALLATION SERVICES

BCS installation activities bring together a range of fields of expertise to create comprehensive, cost-effective solutions that are specifically tailored to meet our client's needs. Installation is often the critical stage in the realization in the oil and gas production facilities and this is why BCS adheres to industry's codes and standards.

Some of the installation services includes but not limited to;

- ✓ Chromatography – to measure the quality of product or reactants
- ✓ Density (oil) – for custody metering of liquids
- ✓ Dewpoint (water dewpoint and hydrocarbon dewpoint) to check the efficiency of dehydration or dewpoint control plant
- ✓ Electrical conductivity – to measure the effectiveness of potable water reverse
- ✓ Oil-in-water – prior to discharge of water into the environment pH of reactants and products
- ✓ Sulphur content – to check the efficiency of gas sweetening plant

CONSTRUCTION SERVICES

BCS experts bring a wealth of experience to the field of construction execution in the upstream oil and gas. Some of the construction activities includes industrial process plant modification, modularization, fabrication, rigging and welding services, etc. Our construction teams provide input into the construction scope, optimizing construction activities and offering cost saving suggestions during all project phases.

BCS professionals leverage decades of expertise in the construction and oil & gas industries, across a wide variety of construction-related roles and disciplines, to deliver exceptional service and quality workmanship for our clients.

COMMISSIONING SERVICES

BCS understands very well commissioning and start-up activities are complex, multifaceted and demanding, for our clients therefore careful planning and expert execution across the entire workflow reduces risks in the commissioning activities. BCS' dedicated start-up and commissioning teams are experts in managing and executing safe, effective project start-ups.

BCS when executing commissioning assures that the design conforms to our client's established occupancy requirements, and that all systems are installed and operate as intended. Whether the project is onshore or offshore, a new-built facility or modifying existing assets, we can customize a solution that meets our client's expectations and objectives.

EXPERIENCE PROFILE

Project Experience in Nigeria

BCS project team has been fortunate to be part of the project team that delivered the following projects successfully;

- ✓ Fabrication and Installation of totem for Total Nig. PLC
- ✓ Supply of LPG Gas Skid to Dutchess Oil and Gas
- ✓ Renovation and branding of Dutchess station at Igando
- ✓ Fabrication and Installation of totem for Total Nig. PLC
- ✓ Fabrication of New Canopy for first Royal Isheri
- ✓ Fabrication of lubricant tanks for MRS
- ✓ Tair projects for Total Nig. PLC
- ✓ Supply of poster frame totem for Total Nig. Plc
- ✓ Supply of poster frame totem for Total Nig. PLC.
- ✓ Construction of NNPC standard station Okene
- ✓ Fabrication and Installation of 1 million Liter tank at ECM Calabar
- ✓ Fabrication and Installation of 45,000 litre underground tank First Royal Slpaja
- ✓ Renovation and branding of Dutchess 3 station at Shagamu road, Ijede and Ogolonto Ikorodu.
- ✓ Fabrication and Installation of T-Air, TQA Sand Invariant Shop for Total Nig. PLC
- ✓ Supply of LPG Gas Skid to Dutchess Oil and Gas
- ✓ Renovation of canopy, branding and supply of LED canopy light to Arowolo Oil and Gas Lagos
- ✓ Fabrication and Installation of totem for Total Nig. PLC
- ✓ Fabrication and Installation of 1M Liter tank at ECM Calabar
- ✓ Fabrication and Installation of 45,000 litre underground tank First Royal S/Slpaja

-
- ✓ Renovation and branding of Dutchess 3 station at Shagamu road Ijede and Ogolonto Ikorodu.
 - ✓ Fabrication and Installation of T-air, TQAS and Invariant Shop for Total Nig. PLC
 - ✓ Supply of LPG Gas Skid to Dutchess Oil and Gas
 - ✓ Renovation of canopy, branding and supply of LED canopy light to Arowolo Oil and Gas Lagos
 - ✓ Supply and installation of LED canopy light to First Royal Oil and Gas Lagos
 - ✓ Fabrication and Installation of Poster frames for Total Nig. PLC
 - ✓ Fabrication and Installation of Poster frames for Total Nig. PLC
 - ✓ Branding and cladding of NNPC station Okota
 - ✓ Branding and cladding of NNPC Station Ago place way
 - ✓ Fabrication and Installation of NNPC Pylon in Yenogoa
 - ✓ Fabrication and Installation of canopy for NNPC Okene
 - ✓ Fabrication and Installation of industrial tanks 6nos of 45,000Ltrs at JUHI
 - ✓ Fabrication and Installation of NIPCO canopies at Benin–Warri Road
 - ✓ Fabrication and installation of canopies for NIPCO PLC,
 - ✓ Installation and maintenance of signages for Total Nig. PLC
 - ✓ Fabrication and installation of canopy for CNG Benin
 - ✓ Fabrication and Installation of totem for Total Nig. PLC
 - ✓ Supply of LPG Gas Skid to Dutchess Oil and Gas
 - ✓ Renovation and branding of Dutchess station at Igando
 - ✓ Fabrication and Installation of Totem for Total Nig. PLC
 - ✓ Fabrication of new canopy for first Royal Isheri
 - ✓ Fabrication of lubricant tanks for MRS
 - ✓ Tair projects for Total Nig. PLC

- ✓ Fabrication and Installation of industrial tanks 6nos of 45,000Ltrs at JUH
- ✓ Fabrication and Installation of NIPCO canopies at Benin-Warri Road
- ✓ Fabrication and installation of canopies for NIPCO PLC,
- ✓ Installation and maintenance of signages for Total Nig. PLC
- ✓ Fabrication and installation of canopy for CNG Benin-
- ✓ Construction of 4-bedroom detached house, Obubra, Cross River State.

PICTURES OF PAST PROJECTS

BCS has successfully executed projects within and outside the shores of Nigeria. Pictures of some of the executed project as shown below;

CONSTRUCTION OF 22M DIAMETER SURFACE TANK FOUNDATION

FABRICATION OF SURFACE TANKS FOR TSL-SO Energy

FABRICATION AND INSTALLATION OF VERTICAL TANK

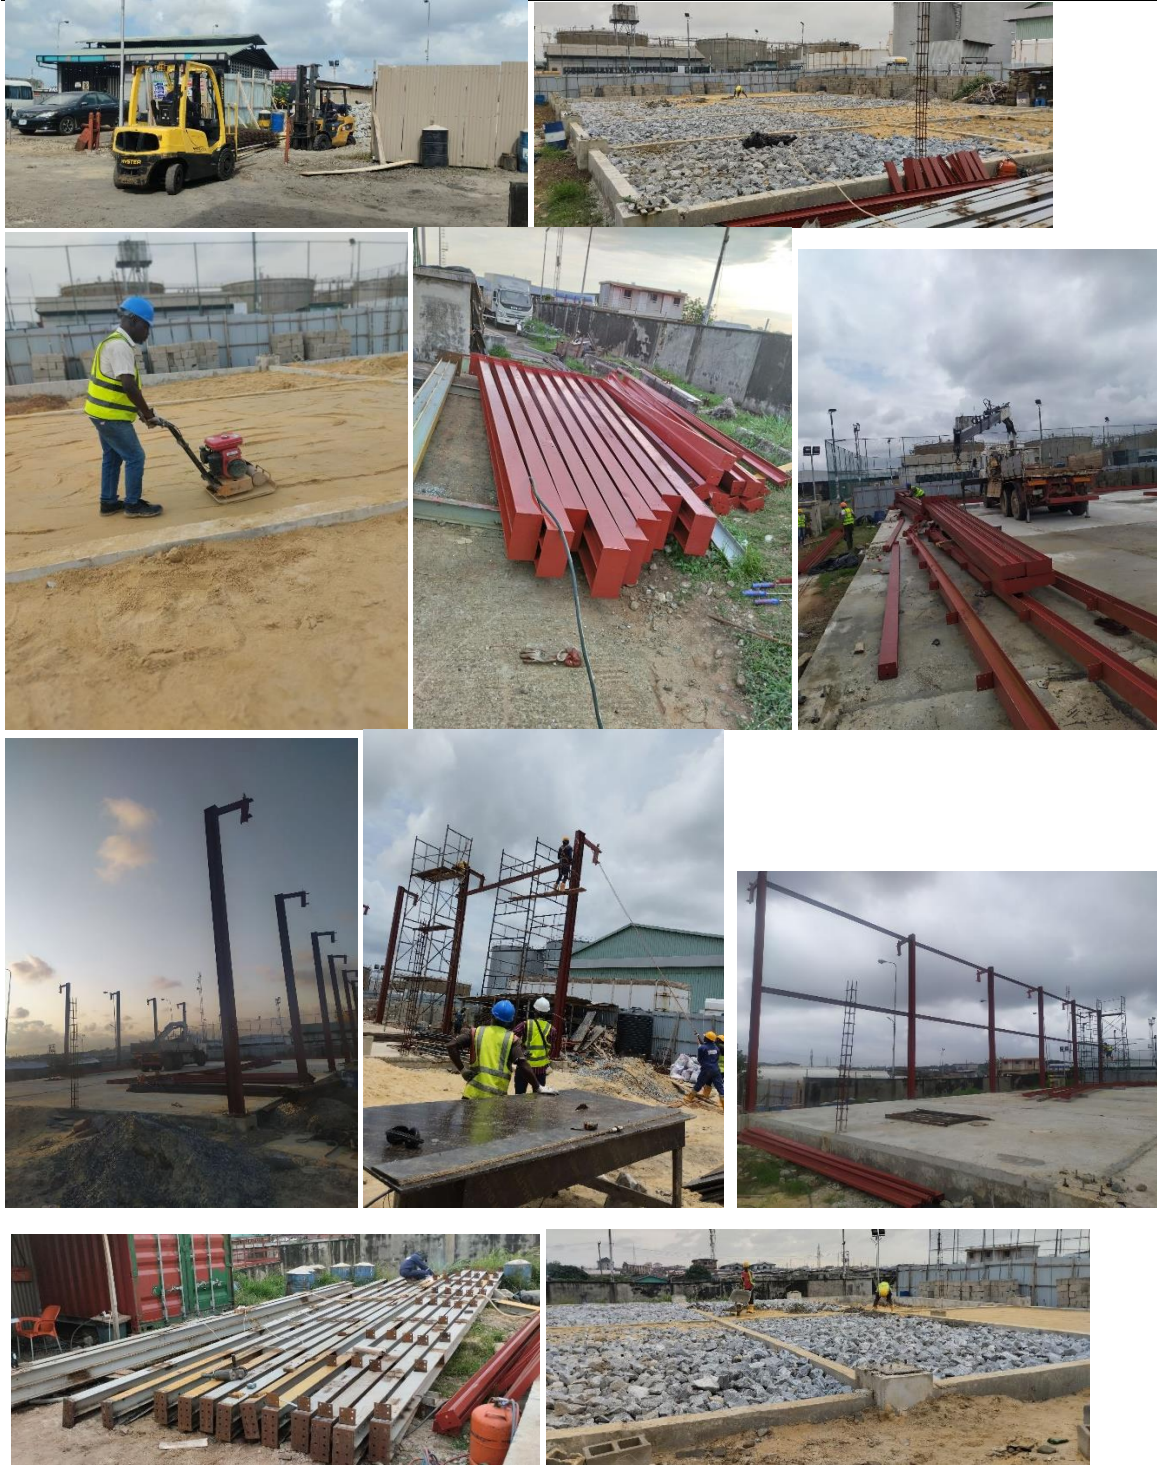

**FABRICATION, INSTALLATIONS, BLASTING AND EPOXY PAINTING
OF JETA1 INDUSTRIAL TANKS 45,000LTRS.**

Construction of Perimeter fence at OVH depot

FABRICATION AND INSTALLATION OF LUBE WAREHOUSE AT OVHEM DEPOT APAPA

FABRICATION AND INSTALLATION OF LUBE WAREHOUSE AT OVHEM DEPOT APAPA

BOLTED TANK DECOMMISSIONING AND ANCILLARY SERVICES

SPECIALIZED SERVICES

BCS leverages on our US Technical Partners to provide Specialized Services for our clients. One of our Specialized Services is;

EARLY PRODUCTION FACILITY (EPF)

With our partnership experience in providing Early Production Facilities allows us to assist our clients across the exploration, development and production phases of their wells. We can design, install, commission and operate Early Production Facilities systems across a range of oilfield for our clients. Our service offers our clients the opportunity to bring new expansions on stream on a fast-track base, before enduring facilities will be installed. This will bring about financial and operational benefits to our clients. Our EPF solutions are built around modular, prefabricated equipment with reconfiguration flexibility for production optimization.

Our EPF Infrastructure includes;

- ✓ Power Generation
- ✓ 3-Phase Separator
- ✓ Flare System (KO Drum and flare stack with flare ignition system)
- ✓ Fuel Gas System
- ✓ Instrument Air
- ✓ Control System
- ✓ Fire and Gas System
- ✓ Miscellaneous Utilities

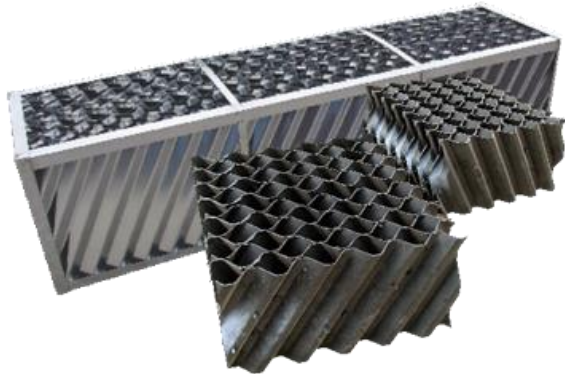

Early Production Facility (EPF)

OIL/WATER SEPARATOR – HUDSON INDUSTRIES (INDUSTRIAL SEPARATION AND PROCESS SOLUTIONS)

BCS in partner with Hudson Industries we were able to design and manufactured a complete line of pressurized coalescing oil/water separators, from 1-5000gpm for a wide variety of industrial applications. These CS Series separators effectively reduce free oil and grease content in waste streams to 10mg/ or less through the use of high efficiency PVC and CPVC corrugated plate modules providing high quality, consistent effluent results.

Oil/Water Separator Package

LPG + AIR MIXER

BCS in partnership with Euro Pump International are engaged in manufacturing LPG + Air Mixer, LPG Package Tank, LPG Car & Cylinder Filling system Skid, and LPG Feeding system Skid and we are dealing with LPG Filling machine, LPG Vaporizer and other equipment as well. This SNG BLENDER supplies SNG in demanded calories supplying LPG and compressed air in specified ratio respectively by PLC program and flow control valve by fluid (pressure) of SNG. When LPG and compressed air is supplied in constant pressure and it can select SNG calories and pressure in manual or auto operations, and it can be stopped or started by set pressure automatically and amount of heat can be controlled easily. Also, programmable logic controller and graphic operator interface are adopted in system control.

LPG Package

DIGITAL TRUCK WEIGH BRIDGE

BCS in partnership with Fujian Keda Weighing Apparatus Co., Ltd has a heavy-duty truck scale/weigh bridge series which is new generation products with stronger and durable platform structure of U-beam, the main beam is made of rigid sections modular-like I-Steel, and more than 6mm beam thickness bending by machine to ensure the complete structure of platform is durable and good quality.
